ELECTION OF DIRECTORS

The following names have been nominated for election to the Board of Directors. Please refer to the back of this page for more information on each candidate.

VOTE FOR NOT MORE THAN FOUR

- Don Bauman**
- Paul Manion**
- David Paterson**
- Frank Reed**
- Brian Tognetti**

Donald Bauman CSI, AIA, MAI, LEED-AP

Over the past year, I have served as the President of the Construction Specification Institute's Metro Detroit Chapter. With continued support and re-election to the Board of Directors, I plan to extend my position as President through 2011. The Board has accomplished a lot this year, but there still remain challenges ahead of us in 2011. Listed are a few key attributes that exemplify my commitment to CSI and the industry as a whole: I am a registered architect in the State of Michigan; I currently serve as the Manager of Specifications for Albert Kahn Associates, Inc.; I have over 30 years of experience within the construction and architectural industry; I am serving as the Secretary for AIA Detroit Board of Directors, Building Enclosure Council; I am a member of the Masonry Institute of Michigan, Greater Wall Committee; I am looking forward to the opportunity to continue serving you and the CSI Metro Detroit Chapter. I welcome your support.

Paul Manion

I am a product representative for Laurence Smith Window & Door/ Marvin Design Gallery. I have been providing windows in southeast Michigan for almost 15 years. I have been a member of CSI since August 2008. I acquired my CDT designation in September 2008. I have been on the Metro Detroit Chapter board since March 2009. I joined CSI to meet other industry professionals so that I could learn from their wisdom to gain a better understanding of the overall construction process. I enjoy the variety of the monthly meetings with a great balance of product presentations and tours. I look forward to another term on the board of this "Outstanding Chapter."

David C. Paterson

With nearly 45 years of experience as an architect in professional practice, David Paterson brings to the Board of CSI insight and perspective that hopefully serves the Detroit Metro Chapter in a professional manner. He has been a board member for ten years and also serves a past president. Presently he acts as student liaison to Lawrence Technical University where he is teaching Architectural Acoustics as an adjunct professor. He is interested in promoting the accumulated knowledge and wisdom of CSI members.

Frank Reed

Frank Reed has been with National Gypsum Company, Charlotte, N.C. for the last 30 years. He is currently the Southeast Michigan Territory Manager for the Gold Bond, ProForm, and Permabase Brand products manufactured by National Gypsum Company. He has been a member of the Metro Detroit Chapter of CSI for a little over two years, helping out most recently the Continuing Education and Golf Outing Committees. Frank is interested in getting involved to help the association reach its goals and objectives for its membership.

Brian J. Tognetti, RA, CSI, CDT, CCCA

Mr. Tognetti, professionally schooled at Lawrence Technological University and the University of Michigan, is a licensed architect in the states of Michigan, Indiana, and Tennessee. Prior to joining Wiss, Janney, Elstner Associates, Inc. (WJE) in April 2004, Mr. Tognetti was significantly involved in projects such as Ford Field, Comerica Park, Visteon Village, the Detroit Lions and Headquarters Facility, Central Michigan University's Football Stadium expansion, and the Kalamazoo Public Library. Mr. Tognetti is now a Senior Associate with WJE performing architectural investigations and building envelope related work. He has been an active member with CSI since July 2005. He has served as a Board Member for CSI's Metropolitan Detroit Chapter and, since July 2007, has served as chapter Treasurer. In addition to CSI, Mr. Tognetti is also an associate member of the Southeast Michigan Building Officials and Inspectors Association (SEMBOIA), a professional member of the International Code Council, serves as Vice-Chairperson of the American Institute of Architects (AIA) Detroit, Building Codes and Regulations Committee, and is a member of AIA Detroit's Building Enclosure Council.
